Technical Skills

Programming Python · JavaScript · Bash

Database SQL · MongoDB

Web Flask · HTML/CSS · React · Scrapy · Git

Experience

Byte Academy

New York, NY

STUDENT

May 2018 - Aug 2018

- Completed a 14-week intensive program covering full-stack web development with Python, JavaScript, Flask, and SQL
- Created and deployed two web applications that tap into web scraping and sentiment analysis (details below)

Rosen Music Studio

Los Angeles, CA

WAITER & CASHIER

Nov 2016 - Dec 2017

- Retained a positive and professional attitude in a fast-paced environment of up to 20 rooms of customers
- Administered customer payments and end of day revenue reconciliation including daily payouts to waiters
- Stocked beverage/food inventory on a weekly basis and updated the inventory ledger as needed

Uber

Atlanta, GA

DRIVER

Mar 2016 - Nov 2016

- Transported passengers in a safe and timely manner, keeping the vehicle clean and inviting at all times
- Offered rides with either a friendly conversation or respectful silence as desired by the passengers, achieving 4.96 rating

J.P. Morgan Asset Management

New York, NY

ANALYST

Jan 2013 - Dec 2015

- Conducted consultative reviews of financial advisor investment line-ups to improve risk-adjusted performance and further diversify portfolios based on the market outlook
- Spearheaded the quarterly data validation & update for the Target Date Compass, an online GUI for financial advisors to compare and monitor target-date (retirement) solutions
- Launched an internal website for the Funds Management division, pooling various sales & training resources and subsequently reducing the amount of repetitive tasks from the sales training team
- Created an Excel model that breaks down monthly flows & assets data from institutional clients, automatically converting enigmatic raw data into summarized results

Projects

Yelp-Heavy

Project URL

SCRAPY, FLASK & MONGODB

- Lite version of Yelp covering restaurants in New York City area that breaks down ratings in a more granular level to better differentiate restaurants
- One-click functionality on restaurants' addresses that link to directions in Google Maps vs. Yelp's proprietary map

The Blunt Horoscope

Project URL

FLASK, SENTIMENT ANALYSIS & API INTEGRATION

- A horoscope that ranks zodiac signs based on positivity ratio of VADER sentiment analysis and displays a humorous, or "blunt", version of a horoscope corresponding to the respective ranks

Education

Emory University, Goizueta Business School

Atlanta, GA

B.B.A., FINANCE & ANALYTICAL CONSULTING
